I did the last two so I am familiar with the process. I need some time and since Mark left and the ITC response is ongoing there just isn't much of that available.

Tim:

On the JOFOC justification Eric is asking about, have you provided anything this time (or in the past)? If not, please let me know how best to proceed.

Subject: FW: ASPECT Contract Status

Can't remember if I sent you this already but it is what we discussed at our meeting last week. Contracts is just wanting to know what direction the program may go. This has probably already made it around at the higher level considering the addressees.

Subject: ASPECT Contract Status

Good Afternoon Tim,

As a follow-on to our phone call yesterday, we would like to get an update on where we are with the ASPECT pre-award and the current ASPECT suite of contracts so we don't continue doing pre-award work in case there are significant changes to the requirement. First of all, regarding the current contract, we would like to confirm that Mark is going to be removed as the alternate COR on the contract. If so, we will need a COR application form for his replacement as soon as possible. Furthermore, we are planning on extending the current ASPECT contract via JOFOC, but we will need someone from the program to provide a justification to extend the contract for six months. We will need the justification no later than April 19, 2019.

There was also the subject brought up during the phone call about combining the ASPECT contract with the DPDS task order which expires September 7, 2019. If that is an option that the program wants to pursue, then we must know as soon as possible so we will cease pre-award work for the ARSS solicitation. The APP that would combine both requirements into one would need to start processing immediately.

As part of market research, I have attached a pamphlet showcasing the benefits of using Small Unmanned Aerial Systems (sUAS) drones for first responder and disaster relief support. I have included this for informational purposes only.

FYI – I am copying my Branch Chief, Claudia Armstrong, to this email.

Thank you,
Eric
